# The HCI Hydraulic Cylinder Difference

Our replacement hydraulic cylinders are expertly designed and manufactured to address specific application needs, enhancing performance and significantly reducing downtime. Partnering with HCI, a comprehensive supplier of replacement hydraulic cylinders and component parts, presents an effective solution to exceed your hydraulic needs.

HCI provides customers with options, answers, accuracy, quality and prompt responses.

HCI stocks aftermarket replacement cylinders for popular foreign and domestic equipment brands.

# HCI is Your Go-To Supplier of Aftermarket Hydraulic Cylinders and USA-Made Component Parts

## Innovative Product Development

Whether you need a hard-to-find replacement cylinder or have a unique configuration that requires a fully custom solution, we have the design, engineering, and manufacturing resources that will deliver the performance and durability you need.

---

## Demolish Downtime

Our hydraulic cylinders and precision machined components are manufactured and assembled in the USA. We can get you up and running without fail, allowing you a carefree custom hydraulic experience.

---

## Same Day Shipping On In-Stock Cylinders

With an extensive inventory of in-stock hydraulic cylinders, our same-day shipping minimizes the time needed to get mobile or industrial machinery back on track.

# Hydraulic Cylinders for All Types of Equipment and Attachments

No two markets have the same requirements, and HCI is here to make your purchasing process as fast, easy, and stress-free as possible. To narrow your replacement hydraulic cylinder search, filter your specifications by category, manufacturer, type, function, base end mount, rod end mount, or model number.

Shop our extensive stock to find your best replacement hydraulic cylinder solution.

Our experts will help you accurately identify your best aftermarket hydraulic cylinder for your application.

## **Custom Hydraulic Cylinder Design and Manufacturing**

When you have an application that requires customized, high-performance hydraulic cylinders, whether it's for a single piece or large quantity orders, trust HCI for all your custom replacement hydraulic cylinder needs.

### **Contact HCI Today to Get Expert Hands-on Hydraulic Cylinder Advice**

Our team of hydraulic experts and engineers are ready to design a custom hydraulic cylinder that meets your application requirements and exceeds your expectations.

# Expert Services for High-Performing Custom Cylinders

## Quality

With precision machined components, our custom hydraulic cylinder design and manufacturing services are grounded in quality and integrity, adhering to or exceeding strict industry and OEM standards.

## Reliability

Minimize downtime and eliminate hydraulic system inefficiencies with a custom-made hydraulic cylinder engineered to provide a competitive edge.

## Performance-Built

HCI's custom-made, purpose-built hydraulic cylinders are designed and manufactured to deliver unsurpassed performance through application-specific customizations.

---

## Custom Design Applications for Hydraulic Cylinders

Design and customize your next hydraulic cylinder. Our hydraulic cylinder configurators allow you to create a cylinder with the custom options your mobile and industrial equipment requires. Once you have configured your custom cylinder, one of our hydraulic experts will contact you to begin your hydraulic cylinder's design and manufacturing process.

# Shipping & Fulfillment

HCL takes the time to ensure your hydraulic cylinder is packaged properly before being shipped to you.

Orders of in-stock items placed Monday-Friday before 12:00 pm CST will be processed on the same day.

## Secure Packaging

With an emphasis on custom package protection, we take the time to ensure your hydraulic cylinder is packaged properly before being shipped to you.

## Navigating Shipping Logistics

Whether you need same-day shipping for in-stock cylinders or custom-built solutions, our team navigates the complexities of transportation/shipping, ensuring your cylinders arrive promptly. In perfect condition, so your operations can resume smoothly.

## Municipalities

HCI offers one of the best combinations of municipality hydraulic cylinders and component parts, all American made, and most in stock and ready to ship.

## Export Fulfillment

Hydraulic Cylinders Inc. technical sales personnel have the knowledge and capability to fulfill export bid requirements for hydraulic cylinder purchases.
